

Appendix C:

Declaration on Use of GAI (Generative Artificial Intelligence) Assistance in relation to Assignment/Project (to be submitted individually even for group projects)

I Dai Jiaxin (student name),
DAIJ0018@e.ntu.edu.sg (NTU email) honestly and sincerely make the following declaration in relation to the following course submission:

1. Name of course: Object-Oriented Design and Programming
2. Course Code: SC2002
3. Instructor: Dr Li Fang
4. Title of Assignment/Project Submission: Turn-Based Combat Assignment

In relation to the foregoing I hereby declare that, fully and properly in accordance with the Assignment/Project Instructions I have (check where appropriate):

- i. Used GAI as permitted to assist in generating key ideas only. ☒
- ii. Used GAI as permitted to assist in generating a first text only. ☐

And/or

- iii. Used GAI to refine syntax and grammar for correct language submission only. ☒

Or

- iv. As it is not permitted: Not used GAI assistance in any way in the development or generation of this assignment or project.
☐

I also declare that I have :

- a. Fully and honestly submitted the digital paper trail required under the assignment/project instructions; and that

b. Wherever GAI assistance has been employed in the submission in word or paraphrase or inclusion of a significant idea or fact suggested by the GAI assistant, I have acknowledged this by a footnote; and that,

c. Apart from the foregoing notices, the submission is wholly my own work.

DaiJiaxin

(Optional) Sample Reflection Questions:

In 150 words or less, briefly state up to 5 key ideas that you formulated that the GAI tools alone could not have generated.

- 1.The design of the new feature, lightning orb. AI is lack of creativity so it can only do its job after humans generate an idea.
- 2.The ability to debug. AI is not so good at logical deduction so they need human to play the games for many times and find some errors. Only after that AI can start to fix the bugs.
- 3.Applying SOLID concepts. I can apply SOLID design principles to modify and improve the code while AI can't without my help.
